

Week 1: Welcome to Sprout Up Explores!

I Spy Welcome Video

Hello Sprout Up Scientists!

In our first video, our instructors showed us what nature looks like around them.

We spied a few cool things in the video, listed below. Try drawing them yourself. Then, spot three more things in the video that you thought were cool and draw those, too!

If you don't have a printer at home, no worries. You can just draw the things below on any piece of paper!

I Spy...	My drawing
Palm trees	
A houseplant	
Yellow flowers	
A Clemintine	

A lake	
A cactus	
A bird	

Nature Name Activity

Now, pick your Nature Name and draw it below:
